ACTION LURE swims, dives, flops like a crippled minnow! Buzzes like a dying insect! Drives pan fish, game fish, salt water fish into a frenzy! Gets savage bites that simply can't pull loose from your hook!

Completely under its own power, ACTION LURE swims and dives like a live darting minnow, then returns to the surface to dive again and again, even on a slack line! As amazing ACTION LURE dives down deep to where the big ones are lurking, fish see its free swimming action, hear its buzzing sound, and bite savagely utterly without fear or hesitation!

Swims & dives to 15 feet! No topping, no pulling!

ACTION LURE swims by itself without being pulled. It swims various depths down to 15 feet for up to one hour or more, with a slow, erratic minnow-motion that no fresh or salt water fish can resist, all the time sending out its enticing buzzing insect sound to attract fish from yards away!

Yes, ACTION LURE hooks in trophy size big mouthed bass, small mouthed bass, pike, pickerel, perch, walleye, dogfish, catfish, trout, and every other conceivable type of pan fish, game fish, and salt water fish! Eye-popping catches are reported from every section of the country, so we say *"Prove it to yourself!"* Use ACTION LURE for a full month, see for yourself how you catch more fish, bigger fish, how your friends fume on learning your amazing fishing secret.

Works like magic even when other lures and bait fail completely!

You'll haul in limit catches when others aren't even getting a nibble, in lakes, streams, rivers, oceans, wherever you fish! Just picture your self-propelled ACTION LURE slashing through the water in brilliant reds, whites & yellows, only 8" long yet carrying enough fuel to cut through the water for as much as one full hour with a single load! Plunging down to fifteen foot depths, rising again to the surface almost once every minute, ACTION LURE plows through the water tirelessly, pulling in the big ones from hundreds of yards around you!

Here's how ACTION LURE works: All you do is snap open the fuel chamber, drop in two pellets of fuel, and close the fuel chamber again. Takes less than 60 seconds; you don't even dirty your hands! And then . . . simply cast or lower ACTION LURE into fresh or salt water, and get set *for the fishing thrill of your life!*

ACTION LURE GUARANTEE

ACTION LURE is guaranteed to catch more fish and bigger fish in every kind of water, in every kind of weather. If you are not completely satisfied in every respect, return ACTION LURE within 30 days for complete refund.

For perhaps one minute ACTION LURE will float quietly; then, as water reaches the fuel, your lure will seem to shudder for a second, then spring dramatically to "life!" Making the buzzing sound of a dying bee, ACTION LURE will point its nose downward, and begin its first descent! Slowly, jerkily, like a maimed minnow, it will swim noisily downward, buzzing and humming, traveling about nine feet every fifteen seconds! If no fish intercepts it, its descent automatically stops, it slowly raises up its nose and climbs to the surface again!

And again! And again! Tirelessly, hour after hour, far beyond the reach of your own casts! Roaming restlessly over every foot of water beneath you -- even on slack line -- even when your boat is tied up -- even when you're *curled upon the deck, sound asleep!* And all the while ACTION LURE is swimming and buzzing and driving the fish around you to such a frenzy they practically tear the rod out of your hands!

World's first self-propelled lure!

No wonder this revolutionary ACTION LURE took six full years to develop! Here's what ACTION LURE will do for YOU! . . .

It frees you forever from the filthy tasks of digging for worms & crawlers, catching frogs, or paying 50c to $1 for a bucket of minnows that die on you before you can even get them into your boat! It frees you forever from paying $3, $4, or even $6 for those fancy "Dead-as-a-Duck" lures that only work when you tow them!

Tomorrow, for the first time in your life, you'll be weighing down your boat with bass, trout, pike, pickerel, perch . . . limit catches of pan fish, game fish, fresh and salt water fish, wherever you can drop a line! You'll fish better -- novice or pro -- sound asleep at the bottom of your boat, than most fishermen sweating and casting till their arms ache from exhaustion!

And you'll have the time of your life, amazing your friends and family with your hauls, and seeing your fisherman friend's eyes pop as they watch your incredible self-propelled ACTION LURE at work!

Try one full month at our expense!

You have nothing to lose! Fish with ACTION LURE for one full month entirely at our risk! Cost is only $2.98. You receive ACTION LURE plus enough fuel to last up to a full year, together with complete instructions. Four "alluring" colors: red, green, orange, yellow. Order all four for only $9.98; you get four times as much fuel, and you save $2.00.

For the fishing thrill of your life, order direct from:

Dear Mr Kirby,

When I went to grade school I remember the name Kirby on FF and Thor. Now I am in college and I see the name of Kirby graces the pages of KAMANDI. I just want to say "Thanks" for some fine, fun reading.

I find your stories in KAMANDI the most entertaining in the field of comics. You have always put something special in each issue. I can't really pin down what this something special is, but it traps me every time I read KAMANDI.

I feel that comics are something special in itself, where fantasy is the basis of the material, where impossible is possible. I think Kirby puts this fantasy into great stories and KAMANDI is the greatest of these. I hope KAMANDI stays around for a long time. It is really great to escape into his world so as to get away from all that factual hardcore reading in my text books.

Dan Carman, Kearney, Neb

Thanks for the kind words, Dan. Kamandi's world is a vast one which will take some time to explore fully. And that name Kirby will probably still crop up when your kids enter grade school!

• • • • •

Dear Jack and Steve,

Since you asked I thought I would let you know that I'm out here. I have read KAMANDI since his inception and have watched this mag grow to greatness. My first thought after reading the first issue was that it was a loose combination of The Planet of The Apes and the High Evolutionary. But as the months passed that all changed and KAMANDI is now one of my top 15 comics (out of over 70) and is one of the comics I subscribe to.

I want to thank you for one of the finest books to come out of the Kirby works, and also for making it a monthly. Not only does the monthly schedule make for better continuity, but my sister, who likes KAMANDI and is hard to please, and I don't have to wait as long between issues. Keep on the same track as you've been on and keep up the good work.

Steve Andrews, St. Charles, Mo

Will do, Steve. We're gratified to see that you're willing to spend money in advance for Kamandi's adventures and Jack is doing his best to see that each one is more thrilling than the previous one.

• • • • •

Dear Sir,

I teach 7th grade science, where I try to use science fiction to arouse my students' interest and awaken their minds. I have been very interested to see if KAMANDI would provide me with good *scientific* science fiction for these students who are *not* "hooked on books". I find many good points but you need a science consultant to keep you from falling into such errors as a 4-legged, clawed, "insect" (p. 20 No. 11). My students will be making insect collections next month, and all will be looking for 6-legged creatures. Please be more careful!

Paula C. Mayhew, Greenbelt, Md

It's interesting to hear that our magazines are finding their way into the classroom with the teacher's approval, Ms. Mayhew, and we extend our appreciation. However, we should point out that the stories and characters in KAMANDI remain closer to fantasy than to science fiction. Kliklak, while resembling a grasshopper, can be considered a mutated species combining certain insect and certain mammalian traits. But we'll watch it next time.

• • • • •

Dear Jack,

What is happening? I thought Kamandi was the only one able to talk? But now I read about Bull Bantam who can ride and talk and use a rope. I know you could teach him to ride and use a rope but it took thousands of years for man to talk. So when the catastrophe came, man had to start over. I know you could teach him a few words, but a whole language?

I also think you are cutting the animals out. I have a good idea for your mag. Have an army of intelligent alligators attack Sacker's company and have a big battle and end up having Kamandi save the alligator leader from Bull Bantam. This would make Kamandi and the alligators friends like the lions. But Kamandi is your story, not mine.

Mike Gregg, Hamburg, Iowa

Not true, Mike. Kamandi is your story. The adventures belong to all of our readers, and we're always glad to hear your ideas on how you think things should go. We've gotten a lot of mail on the fact that Bull Bantam (and Spirit) are able to communicate. The answer is one that will be explained as the story unfolds, so stay with us.

• • • • •

Dear Jack,

I've been reading comics for twelve years and never have I read a more exciting comic than KAMANDI. How you can make each issue such a high quality one I'll never know. Each issue carries a fantastic tone that I've never known any other comic to have.

One thing puzzles me, however. I've followed Kamandi since issue one and in all of your issues you have shown the animals using pre-disaster items; my question is, do the animals realize that the humans once had a mighty civilization or do they believe that the machines are remnants of an animal civilization?

Robert Bostick, Austin, Tex

Apparently not, Robert, in regards to "do the animals realize that man once ruled?" As shown in issue eight, the lions of Washington Zuu have in their possession artifacts which they are unsure of. They can sense that man was once highly valued, but it's doubtful that they realize that man was responsible for their machines. This is part of the message that Kamandi is trying to get across.

• • • • •

That's all for this issue. We've been receiving some very fine mail and we encourage you to keep writing. Every letter is read and evaluated by Jack to help shape the content of Kamandi's adventures. There's more Kirby magic in store and it's coming your way soon. Our address is: THE TIME CAPSULE P.O. BOX 336, NEWBURY PARK, CALIF. 91320. See you next month!
